

Governance and Sustainability Conference 2018

Leveraging Design and Integrated Thinking for Innovation

The School of Accounting is pleased to announce the RMIT Governance and Sustainability Conference, 2018. The theme of the conference ‘**Leveraging Design and Integrated Thinking for Innovation**’ is inspired by the opportunities arising from combining two distinct approaches to develop innovative and sustainable solutions based on user-centred empathy, critical analysis, agility and integrated thinking.

“share cutting edge knowledge and ideas that inspire more responsible and sustainable futures”

Specialist expert panels will also discuss the challenges in adopting design approaches and integrated thinking within:

- ◆ Integrated Reporting
- ◆ Inclusive Capitalism
- ◆ Resource-Constrained Management
- ◆ Design Thinking (Interactive Workshop)

We call for both conceptual and empirical papers that expand the borders of knowledge and challenge the imagination of accounting and governance researchers on the effects of design and integrated thinking.

Paper Submission Deadline: 31st July 2018

Conference Convenor:

Professor Nava Subramaniam

Director, Governance Accountability and Law Research Priority Area
